✦ Production JIG & Special Machine Line up ✦

Our business
 It is possible to contribute to the production process of the car & the cellular phone.
 It is a company that manufactures the JIG rubber treatment device, the treatment device, tools, and the specialized machine.
 There are hand press machine sales results of 800 ten years.
 Please feel free to consult.

JIG
 Rubber treatment device,
 Treatment device,
 Tools & treatment device manufacturer
 JIG manufacturer
 Hand press machine & manufacturing

Rubber JIG
 O ring finish JIG
 Plastic JIG
 Tools

Three dimension shape
 Machining center
 machine tool processing
 Material :
 Aluminum and resin
 (MC nylon ・ acrylic fiber)
 (bakelite)
 (glass fiber epoxy)

◆ Production JIG & Special Machine Lineup ◆

- * JIG for separator production
- * Rubber hole finish JIG
- * Rubber inside and outside diameter finish JIG simultaneously
- * Vacuum type point of contact rubber turning on JIG
- * Point of contact rubber drop JIG
- * Vacuum type plastic product turning on JIG
- * Rubber drop JIG
- * Material drop JIG
- * Metal fittings drop JIG
- * O ring finish (inside & outside diameter)JIG
- * Slit processing JIG
- * Plastic runner cutting JIG
- * Outside diameter check JIG
- * Measurement JIG
- * Print JIG on heaven side
- * Point of contact print JIG
- * JIG for adhesive
- * Transferring printing JIG
- * Magnet type JIG

- * Hand press machine (cam type)
- * Oil pressure press machine
- * Screen type bonding slide machine
- * Hand press machine (gear type) (with vacuum device)
- * Hand press machine (gear type) (upgrade specification)
- * Film & double-faced tape Pressure bonding press machine (aluminum material & base table)
- * Light metals material (aluminum, brass, and copper) cutting press machine
- * Manual transcript print machine (pin ・ stamp)
- * Hand press machine (with heater & thermostat)
- * Hand press machine (standard specification)
